Hope VI, Mixed Finance Modernization or Development, Demolition and/or Disposition, Conversion of Public Housing, Homeownership Programs, and Project-based Vouchers. Include statements related to these programs as applicable.

HUD approved the disposition of the Buckingham Gardens (BG) public housing units in February 2011. The disposition, and eventual demolition and redevelopment of the 130-unit site will occur over a 5-year period. From March – July 2011, the public housing residents in 10 townhomes were provided with HUD Tenant Protection Vouchers to provide them with long-term rental assistance. They were then given extensive relocation counseling and financial assistance to move to suitable replacement housing. In July 2011, these 10 units were disposed and removed from the Public Housing program, and the units were demolished in August 2011.

In their place, a new 55-unit senior mid-rise building was constructed and opened for occupancy in late August of 2012. Known as the Village at Westerly Creek, 55 existing BG public housing residents moved to the new apartment building which was approved for HUD Project-Based Vouchers.

In May 2013, AHA received an allocation of competitive (9%) Low Income Housing Tax Credits to develop the remaining 65 units of replacement housing for the public housing residents. Village at Westerly Creek, Building 2, was completed in February 2015. At the time construction was completed 3 of the remaining residents of Buckingham Gardens chose to take their Tenant Protection Vouchers and moved to other locations. All others chose to move to Village at Westerly Creek, Building 2. All residents were given significant relocation benefits pursuant to the Uniform Relocation Act or Section 104(d) (depending upon their individual circumstances). All former Public Housing residents were relocated by April 2015. Since that time, the remaining PH units at BG have been abated for asbestos-contained material, Freon, and mercury (in the old thermostats). Demolition of these units is scheduled for October 2015.

Subsequent to demolition, it is the intent of the Housing Authority of the City to create an additional 50-65 units of affordable multi-family housing on the land vacated by the public housing. These units will have long-term use and income restrictions in place to ensure the long-term affordability of the site.

**Housing Needs.** Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

It is the opinion of the Housing Authority of the City of Aurora that low income, very low income, and extremely low income families who reside in the jurisdiction served by the Authority continue to have a significant need for affordable housing. Additionally, based on the current vacancy rates, it is clear that housing stock of affordable housing needs to be significantly increased.

**Special Note:** Much of the general data below (with the exception of “Apartment Vacancy Rate: and wait list demographics) has been provided to Aurora Housing Authority by the Community Development of the City of Aurora, Colorado to better guarantee consistency of information between this PHA 5 Year Plan and City’s Consolidated Plan. As such, most of the data is the same as presented in the 2015-2019 Five Year Plan. Additionally, most data represents the most current available information.

Reviewing the employment status for Aurora, CO, based off the 2008-2012 and 2014 American Community Survey (chart below), we see that an almost 10% unemployment rate for Aurora residents of a working age is made up mostly of minorities and others with obstacles to achieve fair working standards. The unemployment rate is even higher with families who have children under the age of 6, suggesting that childcare is a significant factor in getting and/or keeping employment.

The data source for the above chart is American Community Survey for 2014.

The average median income for Denver-Aurora-Broomfield is projected to be $79,900 by U.S. Department of Housing and Urban Development for 2015. As we can see the income levels shown here reveal a much different story with 65.6% of Aurora’s population making below average median income. The average rent in Aurora is $1,039.87 (according to statistics from the Colorado multi-family Affordable Housing Vacancy and Rent Study First Quarter 2015 results). As such, for a household to pay 30% of their net income to housing their annual net income would have to be $37,435 (after taxes and other payroll deductions). This means over 28% of Aurora households (36,548 households) would have difficulties making rent and would find themselves precariously housed.

9.1 **Strategy for Addressing Housing Needs.** Provide a brief description of the PHA’s strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year.  **Note: Small, Section 8 only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.**

A. Need: Shortage of affordable housing for all eligible populations

**Strategy 1: Maximize the number of affordable units available to the PHA within its current resources:**
- Maintain or increase Section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction.

**Strategy 2: Increase the number of affordable housing units:**
- Apply for additional Section 8 vouchers should they become available.
- Explore the possibility of additional VASH vouchers that can be Project-Based.
- Leverage affordable housing resources in the community through the Low Income Housing Tax Credit (LIHTC) program.
- Assess the feasibility of mixed-income development through public-private partnerships.
- Partner with the City of Aurora and other community organizations on projects such as the Housing Toolkit and a possible “Catalytic Project” on TOD site owned by AHA.

B. Need: Specific Family Types: Families at or below 30% of median

**Strategy: Target available assistance to families at or below 30% of AMI**
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance.
- Adopt rent policies to support and encourage work.
- Participate in Aurora-based and Metro Denver initiatives to address homelessness
  - Aurora@Home – The City of Aurora’s collaborative plan to address homelessness among families with dependent children.
  - 25 Cities Initiative – While initially Denver-focused, the partners representing the jurisdictions that constitute the Metro Denver area have been invited to participate in the 25 Cities Initiative with an initial focus on Permanent Supportive Housing for the most vulnerable of the chronically homeless.
  - Family Rapid Re-Housing (SHP Demo) – AHA serves as the subrecipient of this grant to serve homeless families that will most easily stabilize within a 6 mos. to 1 yr time frame.

C. Need: Specific Family Types: Families at or below 50% of median

**Strategy: Target available assistance to families at or below 50% of AMI**
- Adopt rent policies to support and encourage work.

D. Need: Specific Family Types: The Elderly

**Strategy: Target available assistance to the elderly:**
- Apply for special-purpose vouchers targeted to the elderly, should they become available.

E. Need: Specific Family Types: Families with Disabilities

**Strategy: Target available assistance to Families with Disabilities:**
- Apply for special-purpose vouchers targeted to families with disabilities, should they become available.
- Affirmatively market to local non-profit agencies that assist families with disabilities.

Reasons for Selecting Strategies
- Funding constraints
- Staffing constraints
- Limited availability of sites for assisted housing
- Evidence of housing needs as demonstrated in information available to the PHA

(b) Provide the PHA’s definition of “significant amendment” and “substantial deviation/modification.”

In accordance with 24 CFR §903.7(r)(2) which requires public housing authorities to identify the basic criteria the agency will use to determine a substantial deviation from its 5-Year Plan and significant amendments or modification to the 5-Year Plan and Annual Plan, the following definitions are used:

Substantial Deviation: A substantial change in the goals identified in the Five-Year Plan. For example, making a formal decision not to pursue a listed goal; or substituting an entirely different set of activities to achieve the goal.

Significant Amendment/Modification: Adding or eliminating major strategies to address housing needs and to major policies (e.g., policies governing eligibility, selection or admissions and rent determination) or programs (e.g., demolition or disposition, designation, homeownership programs or conversion activities); or modifying a strategy such that a substantial transfer of resources away from others is necessary in order to carry it out.

A Significant Amendment or Modification to the annual plan will be allowed with the consent of the RAB and by Resolution from the Board of Commissioners for the items not included in the Annual Plan. Substantial Deviation/Modification from the 5 Year Plan will be allowed for emergency, health or safety issues or for unanticipated items not identified in the Annual Plan. 2. The Plan contains a certification by the appropriate State or local officials that the Plan is consistent with the applicable Consolidated Plan, which includes a certification that requires the preparation of an Analysis of Impediments to Fair Housing Choice, for the PHA's jurisdiction and a description of the manner in which the PHA Plan is consistent with the applicable Consolidated Plan.

7. The PHA will affirmatively further fair housing by examining their programs or proposed programs, identify any impediments to fair housing choice within those programs, address those impediments in a reasonable fashion in view of the resources available and work with local jurisdictions to implement any of the jurisdiction's initiatives to affirmatively further fair housing that require the PHA's involvement and maintain records reflecting these analyses and actions.
8. For PHA Plan that includes a policy for site based waiting lists:
   • The PHA regularly submits required data to HUD's 50058 PIC/IMS Module in an accurate, complete and timely manner (as specified in PIH Notice 2006-24);
   • The system of site-based waiting lists provides for full disclosure to each applicant in the selection of the development in which to reside, including basic information about available sites, and an estimate of the period of time the applicant would likely have to wait to be admitted to units of different sizes and types at each site;
   • Adoption of site-based waiting list would not violate any court order or settlement agreement or be inconsistent with a pending complaint brought by HUD;
   • The PHA shall take reasonable measures to assure that such waiting list is consistent with affirmatively furthering fair housing;
   • The PHA provides for review of its site-based waiting list policy to determine if it is consistent with civil rights laws and certifications, as specified in 24 CFR part 903.7(c)(1).

17. The PHA will comply with the Lead-Based Paint Poisoning Prevention Act, the Residential Lead-Based Paint Hazard Reduction Act of 1992, and 24 CFR Part 35.
